### HUBBARD TRIAL NOV. 19TH.

The grand jury of Lincoln County, has returned an indictment for murder against Ed Hubbard and his trial for the killing of M. S. Baughman has been set for Monday week, Nov. 19th. Attorneys for Hubbard says they are ready for trial and those for the prosecution say they are also ready.

### LAST RESERVES CALLED.

Germany has called out her last reserve in the past few days according to a Zurich dispatch. Within twenty-four hours all men not utterly incapacitated will be on their way to training centers. It is apparent that Germany intends to make final effort on the western front before American help becomes effective.

### AUTO ACCIDENT.

Mrs. William Burnett, of Shelbyville and her sister, Mrs. B. F. King, of Danville, were both painfully cut and bruised when a large touring car, driven by Mr. King, was wrecked in making the sharp turn on the State pike after crossing the bridge in front of the Lawson farm, Saturday evening at 7:30 o'clock. Mr. King escaped with an injury. The machine was badly damaged. Shelbyville News.

### GET YOUR HUNTING LICENSE

Beginning to-day, November 15th, the bird law is open for six weeks and during that time only can rabbits be killed. Remember the game warden will get you, if you don't watch out. You can't hunt without a license; you can't kill over 12 birds in one day; you can't hunt on another's place without a license nor without the consent of the landowner. About fifty of the best farms around Lancaster are posted and remember, the game warden will get you if you don't watch out.

### SOME COON.

Harry Tomlinson, "Skinny" Guiley and Parker Jenkins captured a coon last Friday night on the Price farm that weighed 36 pounds. His "coonship" whipped three dogs to a standstill, after a fight of forty minutes, was finally subdued and placed in a sack, and brought to town, afterwards whipping two more fresh dogs and was at last killed with a sledge hammer borrowed from Tom McMillan. Mayor Davidson claims to have weighed the coon and vouches for its weight.

### SLIGHTLY HURT.

While working under a machine in the Garage of Haselden Bros. last Monday, Dean Zanone was painfully hurt by the machine slipping from its fastenings and falling, catching Zanone underneath. Fortunately the full weight of the machine was held up by the springs, or the accident would have been more serious. His friends were glad to see him out yesterday and he may be able to return to work in a few days.

### RED CROSS NEWS.

The local Red Cross chapter is energetically pushing its work and many articles are being forwarded every week to the general headquarters, to be sent later to the French front.

Three more boxes were shipped last week, containing surgical dressings, sweaters, socks and wristlets and also a number of trench candles.

On account of the intense cold in France it is very important and necessary that all knitted articles be sent in as soon as possible and all knitters are asked to rush up this work.

The date of the Red Cross exchange has been changed to Saturday November 24th.

### REVIVAL AT THE BAPTIST CHURCH

Beginning last night a series of meetings will be conducted at the Baptist church in this city. Rev. B. A. Dawes, of Bryantsville, leading the services. Rev. Dawes comes as no stranger to our midst and will be welcomed by his old friends here, who will remember him so pleasantly. A consecrated, christian gentleman, a speaker of ability, his sermons will be greatly enjoyed by the splendid crowds that we predict will come out to hear him.

### WAR NEWS OF THE WEEK.

Major Washburn, while in Louisville, in an address on Russia, has revealed new phases of the army of that country not heretofore understood by the people on this side. In his defense of that army he says that but for them the United States would now be paying an indemnity to Germany.

It is understood that the troops are loyal to Kerensky in the recent upheaval in Russian affairs. However, should they make a separate peace the vast quantities of material being manufactured for that country by the United States will not be shipped.

The Italians declare that the Teuton drive is checked. A huge battle is impending along the Piave River where the Italians expect to meet the opposing forces.

The British forces, by hard fighting, in spite of rain and marsh, have extended their line in Flanders.

The American officials are undertaking to open negotiations with Germany in regard to the treatment of prisoners. The German prisoners in the United States have received the best of treatment and it is hoped that similar consideration will be accorded United States soldiers taken prisoners by them.

The artillery forces at Camp Shelby are receiving their first actual firing practice. They are also being trained in wearing the gas mask, which, on the firing line, is carried strapped across the breast in a satchel resembling the children's school satchel. It contains one oxygen tank, one reserve oxygen tank in case of a prolonged attack, one tube for carrying oxygen to the face and one reserve tube in case a bullet pierces the first one. The mask fits snugly over the face, closing the nostrils that breathing thru the mouth may be necessary, and is adjusted quickly to the sound of an alarm given by a sentinel on guard for the gas attacks.

The Germans are using an electrically-controlled motor boat off the coast of Belgium. After the engine is started the crew leaves the boat and it is operated from the shore. The forward of the boat carries considerable charge of high explosives and when it clashes into other boats the explosion takes place. This device is an old one. It was used in 1885 by H. M. S. Vernon on an experimental ship. All the so-called German inventions are simply patterned after other nations. They have very little inventive genius but they do out to a practical use the brains of other people and stamp it "made in Germany."

This is Y. M. C. A. week. Garrard county is asked for \$1000.00. Do your bit and help make a home for the boys on the other side who are doing your fighting for you.

We cannot have peace without war. The United States has to contribute its quota of men and money. The sooner we meet the demands the sooner will the desired end be accomplished.

### EIGHTEEN MORE BOYS

Certified To District Board For Military Service.

The local Exemption Board have probably examined the last boy under the present system of the old draft, as in the future they are to be classified as explained in another part of this issue.

About fifty have been examined during the past week and the following have been accepted for military service and certified to the District Board. Currey D. Rice, Lewis Yantis, (col), Louis Fowler, Robert Dunn (col), Royston Ray, John Middleton, Wm. H. Layton, Jasper Mathews, Virgil Reynolds, Wm. T. Green, John L. Burton, (col), Ornelius Jennings, (col), Shirley Saddler, (col), Adolph D. Joseph, Web Christopher, Everett East, Elmer East, and Liburn Naylor.

### AGRICULTURAL DISPLAY

Of Garrard Products December 1st.

Plans are maturing rapidly for the first agricultural display of Garrard county products ever held in the county and the interest being manifested insures one of the best exhibits that will be shown in the blue grass this year. The premium list is being made out and will be published in the next issue of the Record. The merchants and business men are donating liberally towards the premiums which should bring out a large exhibit and the competition will undoubtedly be large as the exhibits at the end of the show will be turned over to the Garrard county chapter of the Red Cross.

Farm agent, W. H. Rogers, and Mr. Loui Tindler have the work in charge and with the hearty co-operation of the citizens of the town and county together with the help of the Red Cross insures it a success from the beginning.

The exhibition will take place at the Rex Theater and will be held on Saturday, December 1st. Garrard county is nationally known for her farm products and every farmer in the county should have an exhibit at this show of some character.

Help boost the Fair; help boost the county; help boost her products and help boost the Red Cross.

### ARM BROKEN.

Mr. Ross Bastin is nursing a broken arm, resulting from a kick of an auto crank. The accident happened yesterday about noon and is causing him some pain, the large bone near the wrist being broken.

### HALE AND HEARTY

AT NINETY.

Mr. W. G. Anderson, next to the oldest man in the county, celebrated his ninetieth birthday last Sunday. Mr. Anderson is as hale and hearty as most men are at sixty and his friends are congratulating him upon his good health. He attributes most of his good health to horseback riding, which he enjoys most every day that the weather will permit. May he live many years longer.

### LARGEST POTATO

CROP EVER GROWN.

Fairfax Harrison, Chairman, Railroads' War Board, authorizes the following statement:

"The railroads are now moving what promises to be the biggest potato crop in the history of the country. This crop, which is estimated will total approximately 453 million bushels or half again as much as last year, has been on the way since the middle of September. The movement of it will continue until about April 1st, next year. Reports received by the Commission on Car Service indicate that even with extensive loading more than 750,000 cars will be needed to handle the potato crop."

### Y. M. C. A. FUND SHOULD

BE OVER SUBSCRIBED

Chairman Adolph Joseph and Dr. W. A. Wheeler should have the united co-operation of every man, woman and child in the county to see that Garrard county's quota to the Y. M. C. A. War Relief fund is over-subscribed. These gentlemen have worked faithfully and hard and are canvassing every inch of the county to see that a chance is given everyone to subscribe his bit.

Up to going to press everything indicates that the apportionment will be over-reached, but several hundred dollars is yet needed to assure this fact. Don't wait to be seen, but give your money willingly and send it in to either of the above named gentlemen and remember that you would be wearing the khaki yourself, if someone else was not wearing it for you.

City Taxes are due and must be settled at once. O. Buck, Collector.

**Don't Burn So Much Money!**

How would you enjoy a furnace that saves a third or more of your fuel?

And how would you like to get more heat from the smaller quantity of fuel than you formerly did from the larger quantity?

Here's a furnace that will do just that thing—save fuel and give more heat for the fuel consumed. It's the

**PIPELESS CALORIC FURNACE**

The Original Patented Pipeless Furnace

It does away entirely with a complicated system of long pipes and many registers and sends heat directly up into the house through one centrally located register. Then, the heat circulates from room to room—displacing cooler air which is drawn down and reheated—till every nook and cranny is warm as toast. Yes, and this free, unhindered circulation takes place in an amazingly short time and gives an equal degree of warmth in all the rooms.

The Caloric Furnace is doing this in thousands of happy homes.

Hundreds of delighted Caloric owners write letters of unstinted praise, telling how comfortable they are and how much less coal, coke or wood they burn than formerly.

The Caloric is a wonderfully efficient furnace. It may be installed in an old house as well as a new, and even where there is no cellar. You really ought to know about it. Come in, let us show you some of its many advantages—the patented triple casing that keeps the cellar cool, and its guaranteed firepot that has 500 square inches more radiating surface than other firepots. Remember the Caloric is absolutely guaranteed to give you more and better heat, and to save 35% of fuel or no sale.

### A Legally GUARANTEED CURE

for Hog Cholera

Think of it, Mr. Farmer, here is a remedy for hog cholera that is sold under a "Legal Guarantee Bond." How can you afford to take chances against hog cholera when you can get this remedy on such terms?

**Bourbon Hog Cholera Remedy**

Is the only remedy ever put up that guaranteed to cure and prevent hog cholera. It does the work better than any other known remedy, or it would not be sold on such a strong guarantee. Guar. E. L. A. U. S. D. O. As A. B. Remedy Co.

## Get those yolks laid!

If you cut open a grain-fed hen you will find unfed yolks which are due to the lack of white-forming elements in grain feeds. Wheat, corn, oats, barley and kafir contain (above bodily maintenance) elements for an average of 224 yolks and only 151 whites. The hen absorbs the excess yolks, which form fat that cuts down further egg production. Purina Chicken Chowder supplies the white elements.

	Yolks	Whites
Purina Chicken Chowder	132.05	232.55
Purina Scratch Feed	247.49	142.11
Combined Ration	423.54	424.66

Note the perfect balance and the large quantity of white and yolk elements supplied.

**More eggs or money back**

The money paid for Purina Chicken Chowder will be refunded if there do not lay more eggs when fed Purina Chowder than when fed any other ration. Yolk and white elements in Purina Chowder are in the most perfect balance. Feed the perfect balance and you will get the perfect balance. Feed the perfect balance and you will get the perfect balance. Feed the perfect balance and you will get the perfect balance.

Purina Feeds come in checkerboard bags only.

**Leading Dealers.**

We have arranged for a series of six interesting articles, "War Talks, by Uncle Dan," written by Mr. Howard H. Gross, president of the Universal Military Training League, of which this is the first. They tell in a graphic way why military training is of value, both to the nation and to the individual, and our readers will find them of unusual interest.

## WAR TALKS

By **UNCLE DAN**

Number One

America Must Fight Hard or Germany May Win—Necessity for Military Training.

"Now, Billie," said his mother, "your Uncle Dan is coming tomorrow to spend a week with us on the farm, and if you want to know about the war, here's your opportunity. Uncle Dan is probably one of the best-informed men in the country." Billie clapped his hands and gave such a whoop that he awakened the baby, but what could you expect of a fifteen-year-old boy who is a living interrogation point and wants to know about war?

Uncle Dan arrived in due time and Billie watched for an opportunity. It came that evening after dinner when Uncle Dan had lighted a cigar and taken a seat on the porch.

"I'm mighty glad you came, Uncle Dan. I want to talk to you about the war. We have just put military training in our township high school, but we had a hard time to do it. The Joneses and the Greggs objected. They said the war wouldn't come over here. Grandma Jones said: 'They ain't no use to worrit, it will soon blow over.' Well, we put the training in just the same. You orter heard Judge Brownell, the president of the school board, do the slackers up. He said unless we take off our coats and go to it, Germany may yet win, and if she does, she will take over the great British fleet as a war trophy and compel us to do what ever she wants to; that she could make us pay all the cost of the war; the kaiser could tax us as he pleased and that we couldn't help ourselves. He could make every one pay over a part of what he earns; that he could make the farmers pay rent for their own farms, etc. Now, Uncle, what do you think of that?"

"Well, my boy," said Uncle Dan, "all that Judge Brownell says might easily come true and may unless we go quickly to the aid of the allies with large numbers of men and help them break the German line. Unless we can beat the submarines, they may prevent us from getting enough food to the allies to keep them going. In that case Germany would win. As matters stand today, our greatest need is trained men. If we had had several millions of men with military training in our industries and on our farms when the war came, who could have been called at once for service, I do not believe the kaiser would have forced the war upon us. As it was, he had no respect for us, and now we are in it and must go through with it. But never again must we be caught so wholly unprepared.

"There is only one safe way," said Uncle Dan, "and that is to adopt permanently universal military training, apply it to every young man who is physically fit, say in his nineteenth or twentieth year. The training can be carried forward in the United States training camps that are now being established for training men called by the selective draft. As soon as these men vacate these stations, they should be filled by younger men, and this should be made the permanent policy of the country."

Billie's mother, Mrs. Graham, had overheard the conversation. She came out and said: "Really, Brother Dan, are you serious as to the dangers of our country? If it is as bad as that, it is high time for us to wake up and do something about it."

"Exactly," replied Uncle Dan. "It is better to wake up now than to be rudely awakened later. We may as well understand, sister, that this is our war and we must win it or God help America. Everything that we have or hope to have—our liberties, our blessings, our opportunities are all involved in the great issue before us. Nothing must stand between us and winning this war. It is a question whether the peoples' right or the kaiser's might shall dominate the world. If there ever was a holy war, this is it. We are fighting for world liberty. We are fighting for the freedom of humanity. We are fighting for the right of men to govern themselves instead of being governed against their will by a war-mad overlord. Perilous times are ahead of us. We must be prepared to make any sacrifice, to perform any service that may be required of us."

"Oh, Uncle Dan," exclaimed Billie, "may I bring my chum, Jimmie Collins, when we have our next talk? He is a bug on this war business and just crazy to see you."

"Certainly," said Uncle Dan, with a hearty laugh. "If we are to have more talks, I shall be glad to have Jimmie join us."

Billie clapped his hands and ran to the phone and told Jimmie to be over at seven o'clock the next evening.

## Don't Buy a Wagon Until You Have Seen the Columbus.

Before you decide on any wagon, examine the Columbus. Strongly built of the best possible material the Columbus wagon gives the most satisfactory service for the longest period of years. There is no secret in the notably long life of the Columbus wagon. It is the result of the methods employed in construction. There is no wood in this wagon which has not been air-dried under shelter from one to two years.

The axles and the spokes of the wheels are hickory; the hounds, bolsters and sandboards are oak, and the bottom of the box is straight grained flawless pine. These are just a few examples of the care which is taken to make this wagon as reliable as possible. The result is that the Columbus wagon is unbeatable in reliability and endurance. Come in and examine it for yourself. We know you will be pleased.

### DON'T BLAME THE CHILD.

Don't scold your children for lack of control over the kidney secretions. It is not always the children's fault—in many cases it means weak kidneys and can be readily righted. Read this Lancaster mother's advice.

Mrs. H. G. Crutchfield, Stanford St., Lancaster, says: "My little boy was greatly troubled with weak kidneys and had no control over their action, which caused no end of annoyance and trouble. The child looked badly. I got a box of Doan's Kidney Pills and began giving them to him according to directions. They promptly cured him." (Statement given December 20, 1911).

### A PERMANENT CURE.

On November 17, 1916, Mrs. Crutchfield said: "The cure Doan's Kidney Pills made for one of my children has been a lasting one."

### LANCASTER BUTCHER REJOICES OVER WIFE'S RECOVERY.

"My wife suffered for five years and practically lived on toast and hot water. Doctors said she would have to be operated on for gall stones. A lady advised her to try Mayr's Wonderful Remedy and after taking 4 bottles over two years ago, she has been entirely well ever since.

It is a simple harmless preparation that removes the catarrhal mucous from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

R. E. McRoberts, Druggist.

### GUNNS CHAPEL.

Miss Beulah Sebastian was a guest of Miss Valeria Whitaker, recently.

Hudson, Hughes & Farnau.

Mr. Howard Land spent the week-end with his brother, Mr. Hiram Land near Marksburg.

Mr. and Mrs. Allen Teater entertained Rev. N. G. Young and Mr. and Mrs. Harmon Teater.

Rev. D. F. Sebastian, Mr. and Mrs. Walter Grow were guests of Mr. and Mrs. Elbert Calico, Sunday.

Miss Ora Foster of Bradshaw Mills was a guest of Misses Beulah and Ada Sebastian Saturday and Sunday.

Miss Jessie B. Ray had as her guests Tuesday night, Misses Viola Tribble, Zula and Mayme Calico, and Beulah May.

Quite a number from this community were in Lancaster Saturday morning to hear the address by Prof. Coates of Richmond.

Mr. and Mrs. Ed Dailey and daughters visited Mr. and Mrs. D. J. Walton of Marksburg, Saturday and Sunday. Mrs. Walton is ill.

In accordance with the request of the committee in charge of the Y. M. C. A. work, the regular collections of the Methodist and Baptist Sunday Schools of this community were donated to the fund being raised by Garrard county.

At its business session Saturday afternoon, Liberty Baptist church recalled Rev. D. F. Sebastian to be its pastor for the coming year. Beginning in January services will be held twice a month—on the second and fourth Sundays.

Our Sunday Schools are doing good work and have a great mission to perform. Everyone is urged to attend. The knowledge and training that is received in the Bible schools is a great factor in the formation of character and every father and mother should take their children or see that they attend.

### Would Make Daddy Sorry.

Richard was proud of his newly acquired pompadour. One day while standing in front of the glass admiring it, he suddenly turned to his mother and said: "Say, mamma, when dad comes home and sees my pompadour, won't he be sorry he had his hair cut bald."

### Fuel Value of Woods.

Hickory, oak, beech, birch, hard maple, ash, elm, locust, long-leaf pine and cherry have fairly high heat values, and only one cord of seasoned wood of those species is required to equal one ton of coal. Hickory, of the non-resinous woods, has the highest fuel value per unit volume of wood, and has other advantages. It burns evenly and, as housewives say, holds the heat. The oak comes next, followed by beech, birch and maple.

### PASTE ON YOUR MIRROR.

He has twenty-nine chances of coming home to one chance of being killed. He has ninety-eight chances of recovering from a wound to two of dying. He has only one chance in 500 of losing a limb.

He will live five years longer because of physical training.

He is freer from disease in the army than in civil life.

He has better medical care at the front than at home.

In other wars from ten to fifteen men died from disease to one from bullets. In this war one man dies from disease to every ten from bullets.

This war is less wasteful of life than any other in history.—Chicago Herald.

**It Helps!**

There can be no doubt as to the merit of Cardui, the woman's tonic, in the treatment of many troubles peculiar to women. The thousands of women who have been helped by Cardui in the past 40 years, is conclusive proof that it is a good medicine for women who suffer. It should help you, too.

### THE NEW DRAFT SYSTEM.

The first contingent of our new army consisting of 687,000 men is about completed and steps are being taken and the plans are now being published for the next contingent. The entire population and especially the doctors and lawyers are appealed to in the crisis of the nation to give of their best efforts and free service to advise and counsel the drafted men in reporting to the Draft Boards. There should be organized in this community, three of these boards, one constituted of the legal profession, one of the medical fraternity, and another of the private citizens for the purpose of assisting the boys who are called to do military service in presenting their cases to the Draft Board.

The next contingent will be made up in quite a different manner from the one just completed, which makes the assistance of these Advisory Boards so necessary. Under the new system, just published, every man who registered and who has not heretofore been called for examination will be furnished with a list of questions which he will be required to answer and file with the Local Board within a week after he receives them. The date when these questions will be furnished has not been fixed by the War Department but it will be in the near future. After the questions have been answered and returned by the drafted men, the local Board will proceed to immediately divide the entire remainder of the drafted men into five classes and the men will be called into military service according to the class and to the serial number in the respective classes beginning with class one. The first class will include bachelors or married men who have no one dependant upon them for support and not skilled in any essential war industry. Second class includes married men whose families would be able to support themselves and skilled farm laborers or men "engaged in necessary industrial enterprises." The third class includes men with parents, brothers, sisters or foster children entirely dependant upon them for support and county or municipal officers. The fourth class includes married men with wife and children absolutely dependant upon them for support. The fifth class are those who are registered but supposed to be wholly exempt from service, such as national and state officers and ministers of the gospel, and those physically unfit for service. The whole of the next contingent will probably be made up of class number one, taken in the order of serial numbers.

This seems to be the wisest and most practical way of completing our army. If the appeal by the President and the War Department is heeded and the Advisory Boards are promptly organized to help the drafted men to honestly and correctly answer the required questions so each may be in his correct class, the nation will have a powerful army of which the Kaiser will take notice.

### NEW FIRM.

The Slapp-Slaton Furniture Company this morning, took full charge of the Wheeler Furniture Company which was purchased last week by the new firm. Mr. L. B. Slapp will be the active manager of the new firm. Dr. J. T. Slaton, of Lexington, will not take an active part in the conduct of the business. Mr. Keen Lutes who has been with the store since it opened here, will remain with the new firm. Mr. Lutes is one of the best furniture men in this section of the State. Mr. Slapp, who has been connected with the Wheeler stores a number of years, is well known in Danville. He is a hustler and a popular gentleman and knows the furniture business from beginning to end. He will be warmly welcomed as a resident of Danville. The same liberal policies that have characterized the Wheeler store in the past will be followed by the new firm. Goods will, in the future as in the past, be purchased through the Wheeler string of stores. The Advocate predicts continued success for this popular establishment. —Advocate.

### A FORMER LANCASTER BOY.

The following item from the Courier-Herald of Dublin, Georgia, will be read with interest by all who remember Rev. C. M. Chumbley when he was Pastor of the Presbyterian Church of this place. When Mr. Chumbley came to Lancaster, Lewis was four or five years of age and his first school was in the Lancaster Graded School. Mrs. T. J. Price being his first teacher.

"Mr. Lewis Chumbley, who has had charge of the military instruction in Richmond College, Richmond, Va., has recently received a commission as captain in the corps of engineers in the Virginia Volunteers. In addition to his work as military instructor in the college Captain Chumbley is also teaching higher mathematics and chemistry in Richmond Academy and taking the regular law course in the college. His class, Junior Law, has honored him with the presidency of the class, an honor that his friends in this city will appreciate."

### SUES FOR BIG AMOUNT.

Suits were filed through the United States district Court at Frankfort by C. C. Bosworth, trustee in bankruptcy of the Kentucky Rural Credits Association, against former officers and others connected with the company for \$206,000. In one suit he seeks to recover from James L. Watkins, the treasurer, and the American Surety Company of New York, \$25,000, alleged to have been paid out to O. L. VanLandingham, agent for the sale of stock. In the other he seeks to recover \$231,000 from former Gov. James B. McCreary, president of the company; W. H. Giltner, Joe C. VanMeter, Hubert Vreeland, James L. Watkins, Forrest Butts, Wallace Muir, J. L. Jaring, Price M. Witt, T. J. Biggerstaff, Thomas C. Rankin, L. L. Dorsey, Judge John M. Lassing, Morgan C. Hughes, C. J. Elbrick, Chas. H. Berryman, Claude Mercer, Robert M. Scott, Harry B. Hanger, Younger Anderson, Robert A. McDowell, and James F. Jett money VanLandingham is alleged to have been allowed to draw from the company without consideration. Another \$40,000 is asked for on the ground that it was expended in the company's business without right. The trustee is represented in the suit by Attorneys A. M. Baker, and J. A. Edge of Lexington and J. W. Cammack, of Owenton.

### KINNAIRD BROS GARAGE.

Now located in the Rex building on Stanford street. Lack of room has been our handicap. We are prepared for you now as we have about 7000 feet of good clean floor space, good wide entrance both in front and rear, plenty of room in front—no crowding.

Our mechanical department is under the management of Mr. Edd Daugherty. You all know Ed as he has served you for the past four years, from the little boy of the kiddy car to the magnificent cars, that go over the Boonway enroute to the South. They know Ed, they depend on him and they know he is just as careful and competent with one as the other, that's the reason, and we, as well as you, are glad to know that Ed will still be with us to look after your every need and care.

In our sales room we are glad to be able to show you three cars of which the public are proud—namely, the famous Hudson Super Six, the powerful Hupmobile with its hill climbing capacity and last but not least the wonderful little Dodge Bros car that has caused such a wide sensation among the people who crave a high-class complete car within itself under \$1,000.00. We are fortunate to be able to show the public three cars of the reputation of these. Let us demonstrate, it's a pleasure. Our line of accessories is complete, our oils and grease are of the best, as we carry only the Mobiloils, a grade for each car. The name tells the story.

In our tire department you will find United States, Silvertown Cords, Republic, Muller, Racine and Lee Punctureproof Tires of all sizes, for all cars. As you well know there is likely to be quite an advance on all standard automobiles within the next few months. Why not call us up and let us save you that advance, place and order now for spring delivery. Our phone number is 81, call us up, we are always ready to take care of phone calls night or day as we have plenty of help that have rooms in the building.

John and Robert Kinnaird, Props.

**Proof of Power of Advertising.**  
"Advertising is a great art," said one tradesman to another a day or so ago. "Let me give you an illustration: Who should be the best-known son of Jacob? Reuben, of course. But which do you read of and remember most easily? Why Joseph: because he advertised. He wore a coat of many colors, whilst the rest of the family went about in the ordinary kind—whatever they may have been. So we hear of Joseph and his brethren. Such is the power of advertising."

### SCHOOL NOTES.

The work of the present school year is progressing very satisfactorily. The enrollment is a little below that of last year, but the attendance is better.

The new Physics Laboratory is about the most interesting room in the building now. The Physics class seems to be pleased with the equipment, and are making good use of it at regular laboratory periods.

Professor Milton Elliott of Frankfort Ky. visited the school last Friday and conducted chapel exercises. Professor Elliott always has something worth while for the school children.

Rev. C. E. Callison, pastor of the Lancaster Baptist church, conducted the chapel exercises Tuesday morning. Brother Callison, having been a teacher himself, knows the needs of boys and girls, and always contributes something helpful. The local ministers take their weekly turns at chapel as usual. The whole school misses Brother Tindler this year.

The High School Literary Societies have been reorganized this year. The joint program this week, the first of the year, was very interesting. Elisha Carrier gave a reading; George A. Swinebroad reviewed the progress of the war for the last month; and Miss Mary Lee Lear sang for the meeting. The boys and girls will hold their meetings separately at the next regular meeting date.

The Seventh and Eighth grades also have been organized for special Friday afternoon programs every two weeks, the first program, given last Friday was all that could be expected. Both teachers and pupils were delighted.

### HONOR ROLL.

### The Work Cure.

There is no remedy for trouble equal to hard work—labor that will tire you physically to such an extent that you must sleep. If you have met with losses you do not want to lie awake and think about them. You want sleep, and to eat your meals with an appetite; but you cannot, unless you work.

### The Evening Line-Up

Both children and grown-ups, with coughs and colds, are all the better for a dose of Foley's Honey and Tar at bed time. It wards off croup, stops tickling throat, and hacking coughs, and makes an otherwise feverish, sleepless night of coughing and distress, a quiet and restful one.

BROWNVILLE, TEXAS, Mr. Chas. Baker, writes: "My wife would not think of using any other cough medicine, as Foley's Honey and Tar is certain to bring quick relief. It is especially effective in cases of bad coughs, and we give it to our children and recommend it always as a safe remedy, for it cures no opiates."

## "WITH THE COLORS"

Garrard County Boy Writes Of Work  
Done By Y. M. C. A.

The following letter to his mother,  
Mrs. W. A. Price of this city, writes  
interestingly of the splendid work be-  
ing done in the great army camps by  
the Y. M. C. A. So appropriate is the  
letter at this time we are publishing it  
in full.

Ft. Oglethorpe, Ga., Nov. 7th.  
My Dear Mother:

I have intended to write you a little  
note concerning the work being done  
by the Y. M. C. A. that you might be  
able to give some of the folks back  
home an idea of just what the \$35,000-  
000.00 that the Y. M. C. A. is going to  
attempt to raise from the 11th to 19th  
of this month, means to the Boys.

I am sure if some of the people on  
the outside of the Army and Navy were  
aware of the many benefits that the  
Boys receive from the Y. M. C. A.,  
and the accommodating bunch of Sec-  
retaries that they have engaged in  
the field at present, they would come  
across as quickly with this amount  
these people are trying to raise as the  
same people did with the Liberty Loan  
Bond Fund.

However, the ones outside the Army  
are not entitled to all the laurels for  
raising the Liberty Loan Fund to the  
size it went as the "Boys in Khaki"  
had a big slice in that pie, for example,  
this Fort alone subscribed for a little  
over \$3,000,000, worth of Bonds which  
means that every man in the fort with  
the exception of a very few have al-  
lotted from \$5. to \$20. of their pay  
every month for this purpose, their pay  
being a per capita of seventy dollars  
and a few odd cents.

I brought in the Liberty Loan Fund  
merely to show what the boys in the  
Army are doing beside offering their  
services to their country and I believe  
that the majority of the boys will agree  
with me when I say that although this  
Liberty Loan Fund is by far the great-  
est work that has been put over lately  
the work being done by the Y. M. C. A.  
is running next in order, and I believe  
that it would be as disastrous to take  
away the benefits that the Y. M. C. A.  
give the boys as it would be to have  
everyone recall the money they put in-  
to the Bonds, the soldiers and sailors  
have gotten so accustomed to having  
the Y. M. C. A. to fall back on that  
they would be lost without it.

There are 22 buildings in Chickamauga  
Park and there is not a night in the  
week that either some kind of enter-  
tainment or religious service is held in  
each of these and it is just as you will  
note on the other side of this paper,  
"and it doesn't cost us fellows a cent".

The single item of stationery that is  
furnished to the boys must mean an  
immense outlay in itself, there are  
three of these buildings in the imme-  
diate vicinity of the Barracks where I  
bunk and there is not a night out that  
all three of the buildings are filled to  
capacity with the boys writing letters.  
As soon as supper is over you can see  
a steady stream of boys headed for the  
Y. M. C. A. buildings to do their writ-  
ing, and you have to go early to avoid  
the rush and then the writing is mostly  
done prior to 7:30 as there is always a  
program of some kind put on at that  
hour.

These programs consist of moving  
pictures, athletic contests, musical  
programs, speeches and various other  
similar programs and the only thing  
that they sell to the soldiers are post-  
age stamps.

There is a large Auditorium where all  
the special programs are put on, this  
house seating about 5,000 and it is here  
that the Operas are shown, as this is  
the only stage on the grounds that is  
large enough for the large companies  
to stage their scenery. For the last  
month there has been 3 nights each  
week of Operas, as by playing for  
three nights there is a chance for every  
one who desires to see the shows to get  
a seat.

This is the third camp I have been  
stationed in, and everyone had the  
same arrangements although things  
here are on a more elaborate scale than  
any of the others and there are a great  
many more men here to be taken care  
of.

Among other of the great many ben-  
efits there are classes for the instruc-  
tion of the uneducated Americans, and  
also the foreigners who are enlisted  
men in Uncle Sam's Army. I was told  
by one of the Secretaries a few days  
ago that there are over 2,000 enrolled  
in their classes for instruction in En-  
glish and that these men are from the  
primary grades up, there are also  
French classes where the French lan-  
guage is taught by Frenchmen who are  
either working with the Y. M. C. A.,  
or enlisted men, in lots of cases the  
French is taught by the boys in uni-  
form who are French.

I could continue to boost up the good  
work that is being done and if I re-  
member correctly I believe I have told  
you of a considerable amount of the  
work in previous letters but must close,  
and in closing will say that it don't  
make a bit of difference what you hear  
that the Y. M. C. A. is doing for the  
soldiers and sailors both on this side  
and "over there" you can say it is the

truth as I know from my own experi-  
ence of the work that is going on on  
this side and I have heard some of  
those who have been across and have  
come back here tell of what is going on  
"over there".

The Y. M. C. A. people say they  
don't want the soldiers money but that  
they want the folks back home to come  
across with the financial aid, they say  
the boys inside are doing their bit and  
it is up to the folks at home to help  
them stay behind the boys, and if  
everyone could realize what it means  
to the soldiers, they would donate the  
sum they ask in a good deal less time  
than the week they are going to use  
for their campaign.

Will write you again within the next  
few days.

With love,

John Dunn.

#### Might Try It, Anyhow.

A worn-out typewriter ribbon throw  
into a quart of distilled or rain water  
will yield a fine writing fluid.

#### What He Wanted to Find Out.

At a certain wedding the happy pair  
were about to retire, when the younger  
brother of the bride struck his glass  
with a knife and said: "Ladies and  
gentlemen, as the young couple are  
about to leave us, I will cut my re-  
marks short. I invite each and all of  
you to take up your glasses, rise to  
your feet, and—see if one of you has  
not been sitting on my new hat!"

#### Oasis Made to Order.

In the desert stretch between El  
Centro and Yuma, down in the south-  
east corner of California, engineers  
made a new oasis the other day. They  
just bored a hole in the ground, and  
up came the revivifying waters. Then  
a few date seeds were dropped into  
the soil, and a few vegetables planted,  
and they will have an oasis made to  
order.

#### Cancer Not Hereditary.

According to the latest statistics of  
six large life insurance companies,  
compiled by an expert actuary for the  
American Society for the Control of  
Cancer, if one or even both of an indi-  
vidual's parents have died of cancer,  
that individual is no more likely than  
anyone else to die of the same disease.  
It begins to look as though cancer were  
not hereditary at all, contrary to an-  
cient belief.

#### Put Outside the Law.

The strangest punishment which  
still survives in Great Britain under  
modern law is that of "outlawry."  
About ten years ago a lawyer charged  
with forging a check was "outlawed"  
in the Glasgow high court. By this  
sentence the person of the accused is  
declared forfeit. He cannot bear tes-  
timony in a court, nor sue, nor defend  
an action. He cannot act on a jury,  
nor vote at an election, nor act as tu-  
tor or guardian to another person. If  
anyone robs him he has no redress.

#### Extend Helping Hand.

Many of the world's failures would have been splendid successes, if, in their struggling stage, some one had reached out a helping hand to them— and spurred them on when the bitterness of disappointment crushed them. There is, indeed, a moral here. The woman isn't living who cannot do some all of good. Then let her lose no time in doing it—in offering the word of hope or encouragement which is the greatest stimulus the world ever knew.

#### His Faith Vindicated.

Maramatsu San, a converted ex-convict and manager of a home for discharged prisoners at Kobe, recently needed to make a trip to Tokyo, but had only 35 cents toward his fare. With faith in God, he nevertheless started for the station. One train departed without him, but when time for the next arrived, it brought a missionary who, greeting Mr. Maramatsu, said to him: "By the way, I have been intending for some time to hand you this \$5 for your work." Mr. Maramatsu's faith was vindicated.

Between forty and fifty a man who allows his weight to remain high is running more danger of an early demise than he would run if he contracted typhoid fever. What is more, if he were stricken with that disease, his chance would be 10 per cent less than normal. A man who is thinner than the average, on the other hand, has less danger of dying in the decade than a man who tips the scales at the normal figure.

## THE BEAUTIFUL GULF COAST.

### Pass Christian.

Pass Christian is the Newport of the Gulf Coast, and one of the most fashionable and popular resorts in the South. The town, of about 2,000 permanent population, is very generally engaged in entertaining and serving the large numbers who come here, summer and winter for recreation. Society congregates at "The Pass" at all seasons—the summer guests coming from neighboring southern cities, the winter throng from all parts of the North.

Pass Christian was named for a Spanish explorer who discovered the deep-water pass that lies close to the main shore. It is an old and much honored settlement having been popular resort from far back in ante-bellum days. Tradition associates it with the gayest of Southern society and with men and women famous in high social circles of this and foreign lands; President Wilson is one of Pass Christian's recent notable guests. Its location is one of the choicest on the coast. The low lying shores slope upward to wooded hills, where pines and splendid oaks, magnolias, palmettos, and a variety of tropic vegetation grow and flower and flourish luxuriantly, while fine old homes elegant modern villas and charming cottages line the avenues and drive along the shore. Life is ever active at The Pass; there is boating, motor car, golf, tennis and fishing by day and dancing and shooting in the interior for the evening. Pass Christian boasts of one of the finest golf courses anywhere in the South.

Its proximity to New Orleans and excellent transportation service, over the Louisville & Nashville Railroad places all the diversions of the metropolis within the reach of visitors at Pass Christian, who make a day for shopping in New Orleans and return in time for dinner, which is one of the social functions of The Pass; or remaining in the city for dinner, you can return at your pleasure later in the evening.

The hotels rank with the finest in the country, and there many delightful old country homes, where good board and real southern hospitality are found. The inland country back of Pass Christian is beautiful, and many charming drives may be taken over the excellent roads, among fine, productive fruit and truck farms, which ship much of the early garden stuff that is so eagerly sought in northern markets. The fishing in St. Louis Bay and the tributary streams is excellent, many anglers finding their best sport in the little rivers and streams of the immediate interior.

Across the bay from Pass Christian is the somewhat exclusive cottage resort of Bay St. Louis, a place much frequented by residents of New Orleans who own cottages and bungalows and come here for the water sports and the fishing. It is also popular in winter with many northern people who prefer the quiet of cottage life with the accompanying freedom for outdoor sports, to the gay and more fashionable routine of the larger neighboring resorts.

Pass Christian and Bay St. Louis are reached only by the modern steel passenger trains of the LOUISVILLE & NASHVILLE RAILROAD.
